Few roads, if any, in this section have done the extensive advertising that has been done by the "Henderson Route," and from all reports, they are reaping the benefit that is sure to follow judicious advertising. Mr. L. J. Irwin, the general passenger agent, has done a great deal to make his road popular, and the enforced additional equipment and new heavy rail attest the success with which he is meeting.

A history of American journalism, compiled by R. M. McKenzie under the direction of Librarian Putnam of the Congressional Library, will soon be issued by the Government. The newspapers treated are arranged by states, and include those long since dead as well as the newest of the living. In every instance the name of the founder is given and such other facts as will answer the questions which naturally suggest themselves concerning a newspaper's history. The entire work will fill more than two thousand pages. It has taken some three years to prepare, and another six months will probably be consumed in putting it through the press. The compilation was a huge task, involving a search through state histories, county histories, biographies, gazetteers, directories, occasional addresses, pamphlets of all sorts, and the files of newspapers from the earliest American date down to the present time. A thousand papers die every year in this country, and there are now over 22,000 in existence. As early as 1830, with a population of only 13,000,000, the United States published more periodicals than all Europe with a population of 185,000,000 and the lead has been maintained every since.

Old newspapers for sale at 25 cents per hundred.

Farm For Sale.

Farm of 60 acres two miles from Spoutspring and six miles from Clay City, nearest railroad point. This farm is an excellent fruit farm and has on it now about 100 bearing fruit trees and 50 young apple trees. There also are some grape vines on the place. All kinds of fruit do exceedingly well on this place.

I want to sell this farm with the growing crop of corn of 14 acres, 35 stands of bees, and the abundant peach crop. This place is specially adapted to bees, there being an abundance of poplar, lye and other honey-producing trees. This farm is a bargain for one with small capital. For particulars call on or address A. H. McINTOSH, Spoutspring, Ky.

Public Sale!

At my residence at Spoutspring Saturday, August 24, 1901, I will offer at public sale the following personal property: Eight cows, six of them have calves; 10 stock hogs, two sows and pigs; Eight yearling steers and two heifers; various farming implements and household and kitchen furniture. Terms made known on day of sale. Benj. McKinney.

Mrs. Gertrude Saunders, the postmistress of Newcatle, Ky., whose office furnished the sole support for her ten children, has been removed on the reiterated demand of Senator Deboe, and the entire Henry County Republican Committee, who wanted the post for one of their number, J. P. Gray, a dentist, who proposes to administer it in the intervals of his work at his profession. The President has made a rule of permitting the Senator and local Republican Com-

mittee to name the postmasters in their county and could not well make an exception in this case, although he wished to do so. Mrs. Saunders has discharged her duties with entire satisfaction for about nine years. She is the widow of a Republican. The Henry County Committee is composed of eleven postmasters and four others, the eleven having obtained their offices by recommending each other. Yet, in the face of such things as this, Kentucky wonders that she is falling behind in the opinion of the country, and Kentucky Republicans wonder why they do not receive more sympathy from their party brethren in their political fights.

Sometimes the "know how" is as valuable to a person as the time it takes to put it into action. The person who understands his business does what he has to do quietly, and those who do not know how wonder how he succeeds in doing it. Skill is a good thing to have and a farmer needs it as much as any other person of whom I know.

Irvine Notes.

[From The Leader.]

Mrs. Oscar Park, of Middlesboro, is here on a visit to Mrs. M. P. Gardner.

Elborn Reeves was accidentally thrown from a wagon while coming down a mountain near Wagersville and sustained serious injuries.

The public school of Irvine will begin August 19. Mr. James H. Wilson, of Madison county is principal with Dorsie Stockton, of Waco, as assistant.

Hon. W. H. Lilly was confined to his home several days last week by a peculiar hurt. He was bitten on the foot by a mosquito, his shoe irritating the bite until his foot greatly swelled and he was rendered unable to walk. He is now able to get out.

Mr. Harry Riddell, of Denver, Colorado, is among the guests at Estill Springs. Mr. Riddell is a son of Judge Robert Riddell of this place. He left Irvine when a young man and is now one of the most successful lawyers of the West.

An exchange says no portrait of a man ever appears on Uncle Sam's coins and no portrait of a woman on his postage stamps. That is the reason we lick the stamps and squeeze the coins.

Apiarists say the honey crop this season is almost a total failure. The white clover crop was very small and the dry weather cut short the summer blossoms. There will be little or none to sell, and many colonies of bees will doubtless have to be fed to bring them through the winter.

Holding For a Better Price.

Many farmers of this county are refusing the 60 cents per bushel offered by grain buyers for wheat, and very little of the new crop has left the county. Believing that the protracted drouth has shortened the food supply, they will hold for a higher price, entertaining the hope that it will go to \$1 by Christmas.—Richmond Register.

The "Henderson Route" officials report very heavy travel via their line to Oklahoma, account opening of the new land.

Ben Messer was shot and killed by a man named Ruggles at a picnic near Greenup. They were drinking and fought over a girl.

Don't Be Inhumane.

A Jerseyman who went out for a pleasure drive with his sweetheart not long ago received a needed, though rather severe lesson on the necessity of being humane to animals. It was a very hot day, and when the drive was about half over, the horse became balky. He thereupon lost his temper and gave his horse an unmerciful beating. A constable saw him and promptly arrested him for cruelty to animals. He was unable to pay the fine, and his companion settled the business for him. She then went home and wrote him a note, and said: "When a man will so brutally beat a horse and so easily lose his temper, a woman marrying him would take the chance of the same treatment." And the rest of the note released him from the engagement.

The young lady in question did exactly what was right, and was fortunate in discovering the disposition of her fiancé before instead of after marriage. Insensibility to the pain of another is not a trait which is desirable in either a husband or wife. While of course, it is not to be inferred that every man who will beat his horse will also beat his wife, cruelty to animals so vitiates the moral nature that those perceptions upon which a sense of justice depend are blunted. The intimacy of marriage is so close that happiness can only exist where there is mutual forbearance, together with a certain sensitiveness to the feelings of others. The man who does not possess this sensitiveness may not be actually cruel to either wife or children so far as physical maltreatment is concerned, but he will say and do things which are quite as brutal as a blow with a whip would be. There are a dozen considerations which are likely to restrain him from wife beating—the opinion of his neighbors, custom, fear of retaliation by her relatives, fear that his wife might invoke the law, or merely the fact that it is not customary for American husbands to express their sentiments in that way. But if his nature is essentially cruel he will find ways to torture those dependent upon him, which are worse than any physical pain. The true test of man's character is not to be found in his actions when he is restrained by public sentiment or fear of consequences. He is his real self when he is free to act, to indulge meanness, or passion, or cruelty, toward some creature which cannot retaliate and has no means of defence. The Jerseyman who is the unenviable hero of the incident above recorded was subjected to this test, and failed. He may have had an idea that by his lack of consideration for his horse he was showing a manly and stern strength of character which would impress the girl in the seat beside him. Some have an idea that women rather admire those who are capable of cruelty. It is true that women admire a brave man, and often the man in question is a soldier or a hunter, but there is a very fine distinction between the brave man and the man who is ever ready to inflict pain. What the modern girl sees to admire in the soldier is not his willingness to shoot other men, but his sacrifice of personal safety. The kind of woman who would like a man better after seeing him act cruelly toward a helpless animal is not fit for a civilized country.

Isaac N. Greatlives, near Lewisport, is lying at the point of death as the result of a bite from a hog sustained about one year ago.

Drank Cinnamon And Died.

On Monday night of last week there was a dance near West Liberty. Tom Caskey, aged about 22, and John Perry, Jr., aged 16, were present. Caskey was drinking and influenced Perry to drink. Caskey drank eight bottles of cinnamon and died on Wednesday night. Perry has recovered and says he has learned a lesson.

As a result of the recent local option election in which every precinct in Rowan county went "dry" the last saloon in Morehead has been closed.

Perfection is a word that cannot be applied to many products, but when it is used to identify Kerr's best flour. It expresses a truth.

DIED.

Mrs. Richard Tuttle of Sand Hill, died of consumption. She leaves a husband and two children.

Lot Eckley died at the home of his son, Joe Eckley, of north of town, Friday of last week of general debility. His remains were interred at Oak Chapel Saturday. Rev. Wm. Fish conducting the funeral services.

The deceased was born in Pennsylvania in 1810. In early manhood he went to Kentucky, where he lived for thirty years. In 1871 he moved to Callaway county. He leaves six living children—Mrs. Martha Smith, Joseph, W. H. and John Eckley, Mrs. J. A. Stewart and Mrs. Allen, all of whom have the sympathy of the community.

Mr. Eckley was a consistent member of the Methodist Church for many years and was one of our oldest and most reputable citizens.—Centralia (Mo.) Courier.

The Louisville, Henderson & St. Louis Railway—"Henderson Route"—is relaying its entire road with new heavy steel rail, which is bound to make it still more popular with the public.

A Cure For Cholera Infantum.
"Last May," says Mrs. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took Chamberlain's Colic Cholera and Diarrhea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered, and is (nearly a year since) a vigorous healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance." For sale by J. W. Dawson & Bro. and Morgan McKinney.

The initial number of the Estill Leader came out last Thursday. It is a 6 column folio and is O. K. typographically. Robert Friend, a worthy and competent young man, is editor. The sheet deserves success, and it is hoped that it will not meet with the fate all former Irvine publications have met. Irvine is capable of supporting a good paper, such as the Leader promises to be.

A YOUNG LADY'S LIFE SAVED.

At Panama, Columbia, by Chamberlain's Colic, Cholera and Diarrhea Remedy.

Dr. Chas. H. Utter, a prominent physician, of Panama, Columbia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysintery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhea Remedy and as a last resort prescribed it. The most wonderful was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by J. W. Dawson & Bro. and Morgan McKinney.
